Education

Jaypee Institute of Information Technology **Jul 2023 – May 2027**
B.Tech in Computer Science and Engineering *CGPA: 8.0*

- Coursework: Data Structures and Algorithms, Operating Systems, DBMS, Computer Networks

Projects

Reviewpedia | *GitHub* | *Website* **React | Node.js | Golang**

- Built a location-based social platform using **Leaflet** and Uber's **H3 geospatial indexing**.
- Collected **4,000+ real reviews** from Flipkart and Myntra for product discovery and analysis.
- Developed a full-stack application using **React** and **Express**, with an ongoing backend migration to **Golang**.
- Integrated real-time messaging using **Socket.IO** and media storage using Cloudinary.
- Designed a B2B dashboard for market research and demand analysis.
- Integrated **AI agents** with RAG, email automation, and web search.
- Deployed using Render and Vercel, with **GitHub CI/CD** and **Cloudflare** DNS and SSL protection.
- Load-tested using **Grafana k6**, evaluating performance at **20** requests per second and **1400** concurrent users.

Resume Classification and Matchmaking | *GitHub* **Python | PyTorch | Node.js**

- Built an **AI-powered matchmaking platform** that performs resume classification and semantic candidate-to-internship matching.
- Fine-tuned a custom **DistilBERT sequence classifier** on **2,400+ resumes** across **24 career sectors** using PyTorch, Hugging Face Transformers, and CUDA acceleration.
- Benchmarked three distinct NLP architectures, comparing **TF-IDF (65.6%)** and **Sentence-BERT embeddings (70.2%)** against fine-tuned DistilBERT, achieving a peak **78.9% accuracy** and **0.72 macro F1**.
- Engineered a semantic matching engine utilizing **Google Gemini Embeddings** and **Pinecone Vector Database** to rank candidates against internship opportunities via high-dimensional vector similarity.

Technical Skills

Languages: C/C++, JavaScript, TypeScript, Python, Go (Golang)

Databases: MongoDB, PostgreSQL, Redis, PineconeDB, DynamoDB

Frameworks: React, Node.js, Express, FastAPI

ML/AI: NLP, RAG, OpenAI Agents SDK, LangChain

Tools: Git, Docker, AWS, Postman, Grafana k6

Achievements

- **1st Place** in INNOVATE 2.0 Hackathon (2024).
- Semi-finalist in Economic Times Gen-AI Hackathon (2026). | Certificate
- Achieved **Global Rank 931** in LeetCode Biweekly Contest 190.

Certifications

- Oracle Certified Agentic AI Foundations Associate | Certificate
- Hands-On Generative AI by EDUCOSYS | Certificate
